THE REPLY FILED FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114.							
PERIOD FOR REPLY [check either a) or b)]							
a) \boxtimes The period for reply expires $\underline{4}$ months from the mailing date of the final rejection.							
b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f). Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).							
1. A Notice of Appeal was filed on Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal.							
2. The proposed amendment(s) will not be entered because:							
(a) they raise new issues that would require further	er consideration and/or search (s	see NOTE below);					
(b) they raise the issue of new matter (see Note b	elow);						
(c) they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or

Continuation of 5. does NOT place the application in condition for allowance because: The claim rejections under 35 USC 102 and 103, mailed 18 October 2004, stands for the same reasons set forth in the Office action. Applicants argue that Wang Patent (US Pat. No. 6509448) does not qualify as 102(e) reference as the Wang agent is only entitled to its actual filing date (12/13/00) with respect to the instant SEQ ID NOs:4, 17 and 23. The applicants' argument is not persuasive because, as stated in the Office action mailed 18 October 2004, the instant application are not entitled to the benefit of the tiling date of 60/158585 in regard to SEQ ID NO:18 since 60/158585 does not disclose the instant SEQ ID NO:18 (note that that both of the instant SEQ ID NOs:4 and 23 do not comprise SEQ ID NO:18 sequence), and because residues 1-30 of SEQ ID NO:18 consists of the full-length sequence of SEQ ID NO:17. Hence, claims directed to SEQ ID NO:17 thereof are also included in the rejection.

In light of above mentioned rejections being maintained, the proper provisional doble patenting rejection should not be withdrawn, and thus stands.
